Stene, of Parksley, is organist and musical director. Farmers are beginning to make plans

for their next crop, and the voice of the fertilizer-man is again heard in the land.

HIS FIRST TERM.

The New County Judge of King George and Stafford.

COMORN, KING GEORGE COUNTY, VA., January 8.—(Special.)—Hon. R. H. L. Chichester, the recently appointed Judge of the County courts of King George and Stafford, performed the first duty in the capacity of Judge Thursday by presiding over the January term of the King George over the January term of the King George County Court. He was greeted by several hundred citizens of the county, and the youthful Judge presided with such dignity and ability as to produce a very favorable impression upon the people. From the time that Judge Chichester reached the bench in the morning, until late in the evening, the court-room was crowded to overflowing, and during all that long evening, the court-room was clowed to overflowing, and during all that long time there was not a minute when many eyes were not fixed on the new presiding officer. Ex-Judge Ashton walked into the court-room about noon and took a seat with the members of the bar, immediately facing the Judge, and watched the proceedings with apparent interest. The first case before Judge Chichester was the jury trial of a woman charged with house-breaking and larceny, which involved a number of intricate points in law to be passed upon by the Judge.

Mr. James M. Henderson, a prominent merchant of this county, and his son, a partner in the business, were some days ago arrested and taken before a magistrate's court, on a charge of selling intrate's court, on a charge of selling interest blowers in violation of the law. overflowing, and during all that long

trate's court, on a charge of selling in toxicating liquors in violation of the law.

A number of witnesses were examined, and Mr. Henderson was fined \$100 and costs. The case has been appealed to the County Court, and is arousing widespread interest.

Judge C. H. Ashton's handsome restdence caught fire a few days ago and narrowly escaped total burning. The flames were discovered before reaching the roof, and were extinguished by heroic Mr. W. R. Taylor, of this neighborhood,

upon whom a surgical operation was per-formed in Richmond city several months ago, will leave in a day or two for Richago, will leave in a day or two for Richmond to receive treatment again. One of the most prominent and useful citizens of King George, Mr. Taylor has the sympathy of the whole people here.

Mr. Thomas Garnett, for many years the popular and efficient purser on the steamer Wakefield, of the Potomac, paid a brief visit to his old home here this week, and was greeted by a host of warm friends.

MUST HAVE HAWAII.

COL. PENNYBACKER DISCUSSES THE EXTENSION OF OUR DOMAIN.

EUROPEAN STATES MAY PREVENT IT.

Conspiracy Said to Exist, the Object of Which is to Defeat Aunexation-- A Letter from Senator Morgan

Colonel J. D. Pennybacker, formerly of

Rockingham county, but residing in

Washington for a number of years, is at the Jefferson, having come to the city with Senator Daniel and party last week. As has been stated, Mr. Pennybacker was Senator Daniel's schoolmaster, and naturally takes a great interest in the Sena-Just at present, however, Mr. Penny-

backer is greatly interested in the subject of Hawaiian annexation, being a warm advocate of the plan to make the islands a part of the United States domain. He showed a Dispatch reporter at the Jefferson last night an interesting and hitherto unpublished letter from Senator Morgan, of Alabama, on Hawaii, it being supple mentary to a conversation they had had on the subject. The letter alludes to an editorial in the Washington Times, charging that there had been formed a conspiracy of European States to prevent the annexation of Hawaii.

SENATOR MORGAN'S LETTER.

SENATOR MORGAN'S LETTER.

Following is Senator Morgan's letter:
 United States Senate,
 Washington, D. C., Dec. 23, 1897.

Mr. J. D. Pennybacker:
 Dear Sir.—The enclosed clipping from
the Washington Times of this morning,
truly and graphically describes the forming of the line of European States,
 "shoulder-to-shoulder," as it is described
by Count Goluchowski. The robber States
of Western Europe, after dividing all of by Count Goluchowski. The robber States of Western Europe, after dividing all of Africa between them, are joining the Asiatic robber, Russia, to complete the partition of China and Korea. We must move our line out in the equatorial belt of the Pacific, to correspond with our western line, which now extends 1,000 miles northwest of Honoiulu, and includes the Midway Islands, nearly 800 miles to the west of the Hawalian group, or we must sit still and witness this European combine in their domination of the North Pacific move forward and occupy Hawaii. combine in their domination of the North Pacific move forward and occupy Hawaii. I know that Hawaii, measured by its in-trinsic value, is worth more, as a piece of land for agriculture, for that purpose than any block of 7,000 square miles in the of land for agriculture, for that purpose than any block of 7,000 square miles in the United States; and it is, by far, the best "poor man's country" I ever have seen. I know that the climate is better than in any part of our country, and its production of grapes and fruits is rich and varied; and its grain lands are heavy producers of all our cereals, as corn, wheat, oats, and rice; all our tuber crops, as beats and potatoes, sweet and Irish, and Taeo, that we cannot produce; all our melons, besides some that we do not grow, and a great variety of delicate nuts, white walnuts, etc., etc.; cattle, sheep, hogs, goats, deer, and all other domestic varieties of poultry and birds, and many varieties of excellent fish in the ocean and cultivated in extensive fish-ponds, some of them covering 300 acres, are all as good as any we can boast. Its coffee and good as any we can boast. Its coffee and sugar are staple crops of enormous value. But these reasons for annexation, while they are highly tempting, are not the foundation facts on which I justify that

Hawaii is called the "Key of the Pa-cific," and that is true as to all the Pa-cific Ocean north of the Equator and for 2,000 miles south of that line. It is the The Fish Hatchery-Collection of Taxes-Personal.

WYTHEVILLE, WA., January 8.—(Special.)—This being the "hatching" season, it is a busy time with the official. ions are those of naval or army officers, here and abroad.

The "key" that protects commerce is the only one that can unlock the channels of commerce to our merchant marine. I need not enlarge on that fact. Without protection, our commerce cannot grow As the "key" of marine intelligence—of thought and control, expressed in lan-guage, through the electric cable-Ha-waii holds two-thirds of the Pacific at her bidding. Above all, this "key" opens and shuts the doors of the Pacific, on both coasts, to the commerce and naval Powers of the world, at the pleasure of the Power that owns Hawali and its wonderful Pearl Harbor, so far as the North Pacific is concerned. If it was a naked rock in the sea, with Pearl Harbor for a marine haven, and the point of concentration of cable lines, it would be cheap to any great Power at a cost of \$100,000,000. The reasons are simple:

1. It is the only place in the Pacific north of the Equator where a cable can rest; and 2. No cable can cross the Pacific north

of the Equator without a place of rest. Hawaii must be the point of meeting, the plexus of these nerves of commerce, and the nation that holds this in its grasp holds the virtual dominion of the North

The objections to annexation are completely answered in Mr. Thurston's "handbook." They are sentimental, unreal, and triffing; but if they were really formidable, they cannot bear comparison with any of the reasons I have above stated as vital to our national power and protec-

But, I am not arguing the question of annexation. That is a still broader subject, in which our national pledges, our respect for national duty and honor, and our regard for our own noble and heroic kindred, appeal to us in a way that admits of no refusal. I now speak of it as a matter of national safety. If any other nation annexes Hawaii, or forms a relation to the islands that infringes our supposed interests there, the annexation people will force the government into a war to prevent it.

people will force the government into a war to prevent it.

Hawaii will do this, and will be thoroughly justified if she should do this, because she will perish beneath an avalanche of semi-barbarism from Asia if we cast her overboard. The wreckers who are now hovering around Hawaii will not hesitate to swoop down upon the islands. Truly yours. Truly yours, JOHN T. MORGAN.

WOULD BE A GREAT BLUNDER. "I fear for the Democratic party, should

"I fear for the Democratic party, should the treaty of annexation be defeated by Democratic votes," said Mr. Pennybacker. "It would be a worse blunder than that of 1846, when England hoodwinked our Democratic statesmen and got 49 degrees as her boundary line, instead of 54 degrees 40 minutes or fight," the Democratic slogan which elected President Polk. I want the Congress to see to it that fifty years hence 175,000,000 people will not mourn over a worse blunder—a far more momentous one. "I have no faith in England's profes-

momentous one.

"I have no faith in England's professions of disinterested motives in seeking an arbitration treaty, and Senator Daniel's splendid work in defeating that measure is to be most highly commended. England doesn't want to go to war with America; she prefers to 'stand shoulder-to-shoulder' with the other nations of Europe to prevent us obtaining our manifest destiny. The greatest game ever played on the world's chesshoard is now on. America cannot remain an idle spectator. I tell you she must have Hawaii, or lose it to some European nation, and, at the same time lose her own position as the foremost nation in the world." Safety from alum and kindred injurious adulterants will be assured by the use of of Royal Baking Powder. It is free from a lum and absolutely pure. It adds positively anti-dyspeptic properties to the food, and is recommended by physicians and health officers for its healthful qualities. Besides, it will retain its full leavening strength until used, so that its biscuit, cake, and bread are always light, sweet, and fresh.

It would be well to look in the storeroom and make sure that the Royal is used in your food.

of justice ready for action yesterday morning at 9:00 o'clock. The wheels began to turn and soon the sinners were falling before it.

Willie Johnson, a colored boy, was charged with beating Epheriam Kennedy, also colored, but the case was continued until the 11th.

Kennedy, so far as the evidence showed, caught hold of the bridle of the horse which Johnson was driving and the latter immediately gave him the whip intended for the horse. Kennedy then swore out a warrant for Johnson, charging him with assault. The case was continued to have an important witness present.

Littleton E. Smith, a colored man, was acting suspiciously on Grace street, near Fifth Friday night, pulling his hat over his face and his coat collar up close over his head, as if seeking to escape identification. While in the midst of these efforts to pass unnoticed he stumbled upon Policeman Wren, and in less time than it takes to tell it Smith had taken up lodgings at the Second-Police Station. He was required by Justice John to give security in \$100 for ninety days.

Daniel Walker (colored) was also charged with being a suspicious character, and likewise he was asked to furnish security in \$100 for ninety days.

security in \$100 for ninety days.

IN THE CITE CHURCHES.

Special Services to Be Held To-Day and To-Morrow.

It is said that the congregation of St Andrew's Protestant Episcopal church are contemplating the erection of a new house of worship, the present edifice o south Laurel street being considered t

are contemplating the erection of a new house of worship, the present edifice on south Laurel street being considered too small for the proper accommodation of the congregations that now attend there. The Young Men's Missionary Society of Pine-Street Baptist church will hold a grand rally to-morrow evening at 8 o'clock in the main audience-room of the church. It is expected that Professor S. C. Mitchell, of Richmond College, will make an address. Mr. Minor, one of the members, has arranged some nice music for the occasion. This society is composed of the male members of the church, and they are doing a good work in building up the Sunday school and other branches of church work.

The members of the Epworth League of Richmond and Manchester will hold an important meeting in the parlors of the Young Men's Christian Association to-morrow night at 8 o'clock.

This will be young people's day at Grace-Street Baptist tabernacle, had Dr. Hatcher has arranged an exceedingly attractive programme of exercises. In the morning there will be a rally of the young men of the church. The pastor will deliver an address especially to them, and it is expected that President Boatwright will also be heard on the occasion.

At night the services will be held in the interest of the young ladies, and the young ladies of the Woman's College have been invited to be present at that service. There will be, in addition to special music prepared for the day under the leadership of Mr. Haddon S. Watkins, singing by the quartette of the Woman's College and the Musical Club of Richmond College.

Bishop Whittle will preach the sermon at Christ church, corner Twenty-second and Venable streets, this morning at 11 o'clock. The Traction Line's Oakwood cars pass the door of the church.

Rev. Dr. E. J. Barton will preach the anniversary sermon before the Ladies' Missionary Society of Immanuel Baptist church to-night at 8 o'clock.

Special services will be held at the Union Gospel Mission, No. 2, corner of Twenty-first and Franklin streets, each night

MAY HAVE A NEW JAIL.

Mr. Gunst Will Introduce the Measure-Temporary Repairs. Mayor Taylor, Chairman Gunst, of the Grounds and Buildings Committee; City-Attorney Meredith, Assistant-City-En-

gineer Bates, and City-Sergeant Epps made an inspection of the jail at noon made an inspection of the jail at hoon yesterday.

The whole building was found to be in a wretched state of repair, but the condition of the boiler was such that the gentlemen were unanimous in the opimion that it was a menace to life and property, and instructions were given that it should at once be put in order, according to the specification and estimate of the Engineer's department, which fixes the cost at \$150. No other repairs were credered.

posed of Mr. Gunst will introduce a sure before the Council, providing for the erection of a new city iail, at a cost of \$40,000. In support of this, he will endeavor to show that for years past the

deavor to show that for years past the city has not spent less than \$500 a year in repairs at the jail.

Several desirable locations will be brought to the attention of the Council, but the one most favored by the chairman of the Grounds and Buildings Committee, is on Thirteenth street, near the Medical College of Virginia.

The Grounds and Buildings Committee was to have met at the City Hall at 3 o'clock yesterday afternoon to make a tour of inspection of the armories, but Messrs. Gunst and Neal were the only members present, and the tour was postponed.

The Committee on Conference from the

two branches of the Council, appointed to adjust, if possible, the difference existing between the two bodies as to the elec-tric franchises usked for by the Home Southern Electric companies, wil meet to-morrow evening at 5:30 o'clock. WILL CONSIDER THE BUDGET.

The Finance Committee has been called to meet in the City Hall on Thursday evening at 7:30 o'clock, to consider the budget for 1898. The heads of depart-ments, and all others interested are invited to be present. Good Templars to Meet Wednesday. The District Executive Committee

the Good Templars will meet Wednesday night at the residence of Mrs. Quisen-berry, No. 214 east Clay street, to transact business preparatory to the meeting of the District Lodge next month. The McGill Catholic Union.

The McGill Catholic Union will hold very important business-meeting on Mon-day evening next, the 10th instant, at 8:30 P. M. A large attendance of the members is earnestly desired.

A Very Serious Question.

Rolls, muffins, biscuits, cake, etc., now generally made by the aid of baking powder, enter so largely into our daily food that their debasement by the introduction of injurious substances is a matter of serious concern to the public health tion of injurious substances is a matter of serious concern to the public health. What baking powder shall we use to protect ourselves against the danger from alum, and to insure pure, sweet, wholesome, and nutritious food, is a question of vital importance for consideration in every household.

every household.

It is a fact that a large percentage of the baking powder sold from many grocery-stores is made from poisonous burnt alum. There is no mark to designate it, and both grocer and purchaser are unaware of its dangerous character.

But alum baking powders, which spoil so quickly that they must be sold in glass bottles, besides being unhealthful, are unreliable for leavening purposes. They lose their strength almost upon the opening of the bottle, and fail to make light biscuit, break, and cake.

biscuit, break, and cake.

Every one has suffered from digestive disorders arising from food made with alum baking powders. It is likewise believed by physicians that to the absorption of alum into the blood are due many of those obscure nervous diseases from

of those obscure nervous diseases from which people suffer. Safety from alum and kindred injurious
